Instructions for Home Builders

*Green Mansions Management **(GMM)** has formulated the following protocols / guidelines for construction of your home. These rules are for the benefit of your own safety and to ensure a clean and peaceful environment for all residents:*

1. No construction materials (sand, bricks, steel etc.) is allowed to be unloaded on roads / streets. Violation of this instruction will be dealt with only one warning and a penalty will follow on second violation without any further warning. A staging area should be set up in the adjacent or appropriate location with the consent of the GMM.

2. Water bore must be installed at the start of construction for water needs of construction. Green Mansion's water bores cannot be used for construction purposes as they are specifically for gardeners use. Any unauthorized connections to Green Mansion's water bores will result in penalties.

3. No truck loader is allowed to enter in Green mansions as maximum height at our front gate is 11 Feet. Only a trolley can bring materials.

4. While supplying materials, please keep Green mansions roads clear of any kind of sand or soil. This can be done by taking care of maximum load allowed and giving specific instructions to material providers to take care of cleanliness.

5. Every builder have to register his labour / co-workers with Green Mansions office, in order to restrict the entry of unauthorised persons in Green Mansions. A gate pass will be provided to each worker and only the holder of the gate pass shall enter the gate.

6. Please strictly follow the drawing signed by Green mansions staff / engineer and TMA. Any violation of the approved drawing will not be allowed and will be dealt with legally.

   We hope to preserve and grow the value of your investment with us through effective management of Green Mansions. We also aspire to provide a clean, peaceful and high quality living experience to all our residents and look forward to support and participation from you to achieve our shared goal.

   Yours' Sincerely,
   Green Mansions Management
